# SOME PARTICIPATING BRANDS FROM ELECTRICAL, ENERGY & POWER PHILIPPINES 2018

# POWERING UP A SUSTAINABLE FUTURE

With the Philippines having an electrification rate of only 87.5%, there is a need to further develop the industry that caters to supporting and helping solve this issue.

In 2018, the Society of Philippine Electrotechnical Constructors and Suppliers, Inc. (SPECs) alongside Global-Link Exhibitions Specialist, Inc. gave an avenue for solutions to electrical and power issues provided by the best in the business—the Electrical, Energy & Power Philippines.

With the successful pioneer show, EE&P is back and will once again take part in powering up the future of the electrotechnical industry. The show will be one-stop for all the latest products and technologies in electric, energy, green, lighting, solar & power, and transmissions which can shed light on the said issues our country is currently facing.

“SPECs is proud to announce EE&P is on its second year of providing quality electrical products and solutions to the electrotechnical industry. It will open doors to larger sales opportunities generated for its exhibitors and business opportunities for trade buyers like Architects, Building & Construction Professionals, Contractors, Fuel and Energy Suppliers, Technical Management, and many more! With the success that 2018 brought in, there is nowhere to go but up—this means a bigger, brighter, and more electrifying exhibition of the latest products and services for 2019!”

**FRANCISCO B. GONZALEZ, JR.**  
SPECs President 2018-2019

## LIGHTING & LED TECH PHILIPPINES

- Design and Illumination Software
- Electrical Wires, Cables, and Gadgets
- Industrial and Commercial Lighting
- Solid-State Lighting
- Special Purpose Lighting
- Simulation / Inspection / Measurement / Test / Evaluation Equipment

## GREEN ENERGY PHILIPPINES

- Eco Living Solutions
- Environmental Design
- Green Building and Construction
- Green Manufacturing Technologies
- HVAC Equipment & Accessories
- Hydroelectric Technology
- Intelligent Building Products and Systems
- Micro Renewables
- Pollution Control
- Waste Processing and Management Solutions
- Wind Power Generators

# SHOWCASE YOUR BEST TECHNOLOGIES & SOLUTIONS

## SOLAR & POWER GENERATION PHILIPPINES

- Controls and Automation Technology
- Energy Supplies and Storage Systems
- Generation Technology and Components
- Measurement and Tracking Systems
- Mounting Systems
- Plant and Asset Management
- Power Automation and Distribution
- UPS and Inverters

## TRANSMISSION & DISTRIBUTION PHILIPPINES

- Consultancy and Services
- Distribution and Transmission Equipment
- Electrical Substations
- Grid Maintenance
- Instrumentation and Measuring Systems
- Maintenance and Services
- Network and ICT Infrastructure
- Power Distribution and Control
- Systems Integration
- Turn-Key Contracting

*\* Note: This is just an overview. Related products and services are also welcome.*

# HOW WE BRING VISITORS TO YOUR BOOTH

- Direct mail, email, SMS, telephone & fax invitations to a qualified list of decision makers.

- Photo releases
- Feature articles

- Newspaper & magazine print advertisements
- Show invitations
- Posters
- Television ads
- Radio plugs
- Outdoor billboard

- Show website
- Email invitations
- Social media
- Industry blogs

- Technical seminars
- Special activities

## EXPECT TO MEET DECISION-MAKERS FROM VARIOUS

- Architects
- Building & Construction Authorities
- Co-Generators
- Company Owners & Partners
- Consultants & Engineers
- Contractors & sub-contractors
- Decision-makers from manufacturing & processing industries
- Developers
- Distributors & retailers
- Electrical Contractors
- Electrical, Electronic, & Mechanical Engineers
- Electricity & Power Authorities
- Environment Agencies
- Facility Managers/ Directors
- Financers & Investors
- Fuel & Energy Suppliers
- Government & Municipalities Regulators

- Importers, Distributors & Agents
- Independent Power Producers
- Industrial Co-generators / Self Generators
- Interior & Lighting Designers
- Large Energy Users
- Manufacturers
- Marketing & Sales Personnel
- On-site & Back-up Power
- Original Equipment Manufacturers (OEMs)
- Project Developers
- Project Directors, Managers & Consultants
- Research & Development
- State Owned / Public & Private Power Utilities
- State Owned Transmission & Distribution Utilities
- Technical Management
- Trade Associations
- Utilities
- Vendors

## ABOUT THE ORGANIZERS

The **Society of Philippine Electrotechnical Constructors and Suppliers Inc. (SPECS)** is a non-stock, non-profit organization of licensed electrotechnical constructors and suppliers. A recognized professional entity in the electrical industry, SPECS serves the purpose of organizing its members into one unified force that caters to the needs of the electrical industry and consequently to the nation and to the ASEAN region. Unifying licensed electrotechnical constructors and suppliers across the nation, SPECS serves the interests of all its members.

**Global-Link** is an events-organizing and management company in operations since the early 1990s. It has an average of 25 annual trade event titles and has won the coveted award for Best in Exhibition Management from Pico Global two years in a row. Its portfolio includes PHILCONSTRUCT, HVAC/R, Hotel Suppliers Show, Pack Print Plas Philippines, Systems Integration Philippines, and more.
